

MTH FARM IS PROUD TO ANNOUNCE

BILLY PICKEL MONTHLY LESSONS

Once a month starting February 20, 2010 Bill Pickel will be coming to MTH Farm to offer private lessons to all level of Handlers and Dogs (All herding breeds welcome).

Billy Pickel grew up in East Tennessee. His family always had dogs around to bring the cows in for milking, or to move them when they were taken to market.

Billy moved to Wyoming in 1977 and began to hang around the Flag ranch, which at the time was running a band of range sheep. He spent time with various herders learning about herding sheep and using dogs to get the job done. He met Ernie Hartnagle and became interested in competing with herding dogs.

The next few years were spent learning about how people worked with their dogs in order to get various jobs done. Billy began to develop his own style of how to work with and train dogs to work livestock.

Billy believes that a good solid foundation of basic dog work is necessary for the handler and the dog to be productive. He believes that "getting the basics first and having them solid is the best way to develop your handling skills and your dog's abilities".

Bill has competed with his dogs from Tennessee to Montana and the Rocky Mountain region. He has judged a variety of events from arena trials to field trials and Cattle trials including the National Western in Denver, CO

Billy's basic philosophy is "Slow and steady will win the day".

COST PER LESSON \$65.00 each All lessons MUST be pre-paid.

Limited to eight lessons per day. If weather requires rescheduling, handlers will be scheduled first on the next lesson day. If you can not make that day a refund will be issued.
